PROFILE OF PARTICIPANTS

INTERNATIONAL MASTER IN FURNITURE Product Design

PROFILE OF PARTICIPANTS

It intends to prepare a professional, a "designer", which integrates knowledge of relevant disciplines of design, with those of related disciplines such as eco-design.

The course is open to all who are interested in increasing their knowledge and improve the competitiveness of their Curriculum Vitae.

These courses are ideal for those who want to gain experience relevant to their profession by investing a limited time to acquire skills designed to enrich their professional and above all practical experience in close contact with the Made in Italy.

This training offer has been characterized more and more over the years for its comprehensive international study COSMOB means to be placed in a cultural environment that looks to Europe and the world.
